Merrymakers Cause Slight Damage Here

Hallow'een Observance Has Usual Aftermath of Window Cleaning

Ghosts, goblins and other gentry of the nether-world, walked, ran, roamed, aged, fruit, pealed bells, soaped windows and otherwise disported themselves in the traditional Hallow'een manner here Saturday night. The observance locally felt the "law of diminishing returns" and consequently the damage reported was just a little less than last year.

Outstanding Hallow'een depredations were: The breaking of the Torrance theatre's Neon-light on the marquee over the entrance; the shattering of the chandelier of the Baptist church bell, slight injuries to a young girl, whose name was not obtained by police, when a stone was hurled through the windshield of the car in which she was riding.

Took Chief's Advice
Local police had a difficult time locating the youngsters who tolled the Baptist church bell from a vantage point in a tree across the street about 1:15 a. m. Downtown store windows were plentifully supplied with soap, necessitating much "elbow grease" Monday morning. No arrests were made although police broke up several bands of youngsters intent on mischief.

Police Chief G. M. Calder declared Sunday that one youngster told him that he (the boy) had taken Calder's advice on how to observe Hallow'een by leaving foodstuffs on the doorsteps of needy families, peeling the door bell and then legging it away.

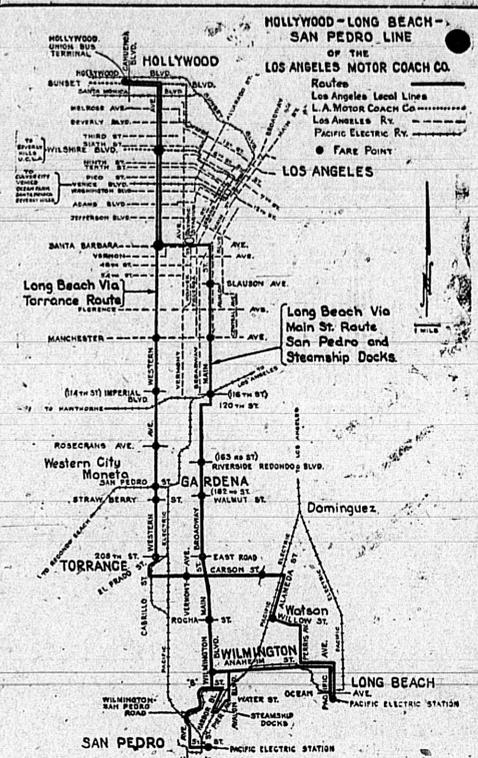

"But I don't know if the families were needy ones or not and I think some of the food and vegetables were pretty old," the boy told Calder.

Many homes entertained groups of merrymakers of all ages and this helped keep the damage quota to the minimum.

LOMITA ESCAPES DAMAGE ON HALLOW'EEN NIGHT
LOMITA—Hallow'een was observed here in a most satisfactory fashion, both according to the police and the young people. A number of delightful parties were held and the young people made merry with games and Hallow'een fun indoors. No damage to property nor malicious mischief was reported.

A number of small parties and private dances were held here Saturday night but as far as the constable's office is concerned it was the quietest Hallow'een ever.

DIRECT BUS ROUTE LINKS TORRANCE TO HOLLYWOOD

The above map shows very distinctly the entire route of the new Hollywood-Long Beach-San Pedro line of the Los Angeles Motor Coach company via Torrance which went into effect last Sunday. A full description of the service offered is reported below.

Giving to Torrance direct transportation to the heart of Hollywood, the Los Angeles Motor Coach company, owned jointly by the P. E. and Los Angeles Railway companies, began operation of its service from the "movie" city to Long Beach, San Pedro and the Los Angeles harbor docks last Sunday. En route to Long Beach, half of the service is operated via Western avenue and through this city and the other half traverses South Main street.

Under the schedule now in effect six round trips daily are operated, three to Hollywood leaving Torrance at 7:14 a. m., 4:14 and 7:14 p. m. Due to the fact that there is already service available between Torrance and Long Beach, the franchise forbids the Los Angeles Motor Coach company from picking up passengers between these two points.

Vista Highlands Improvement Up To School Men

City Engineer Leonard was instructed by the council Tuesday night to find out if the Los Angeles Board of Education will agree to extensive street improvements in the Vista Highlands district. The school district owns two blocks or one-eighth of the property in the tract and cannot be assessed for improvements unless consent is given. Leonard reported.

The work, which includes paving, sidewalks and curbs, would cost about \$86,000 according to revised figures, the engineer said. The assessed valuation of the property—not the true value—is \$93,550. Vista Highlands is one of the city's most attractive residential tracts and has about 80 families now. The Chamber of Commerce proposed several weeks ago that the improvement be started as soon as possible. The tract is located between Torrance boulevard, Hickory avenue, Carson street and Cedar avenue.

Radio Advertising Rejected By City

A proposal was made to the Chamber of Commerce directors by Guy L. Hulsizer, of KFOX, Long Beach, to use radio to exploit this community's residential and business district. Hulsizer, who was introduced by San Rapaport Monday afternoon, offered the chamber the KFOX facilities at the following rates: \$300 per month for 15 minutes of entertainment and advertising, six times a week, or \$600 for two 15-minute periods, six times a week. The directors declared that no money was available for radio advertising at the present time and consequently no action could be taken on the proposal.

3000 BIRDS LIKE HIS HOME

NORWALK, Conn. — (U.P.) — Anyone knowing a good way to discourage the attentions of birds should get in touch with Grover Muler. Muler has tried everything—that is, everything he has heard of so far—including roman candles, to get some 3000 birds to leave the eaves of his house and treetops around it.

FOREIGN BIRD SHOW OPENS NOVEMBER 13

(By C.N.P.A., Inc., Service)

For the third time, rare and colorful birds from foreign lands will be on display for the benefit of bird fanciers at Long Beach, November 13, 14 and 15. The show, the only show devoted exclusively to foreign birds in the world, and being held under auspices of the Avicultural Society of America, will be held at the Armory, Seventh street and California avenue.

Entries thus far indicate that the show will be even larger than the 1930 show, when more than 500 colorful birds yielded for honors. J. H. Arnold, manager of the show, believes between 750 and 1000 birds will be on display. Among rare species of birds will be a pair of Bourkes, recently imported to America from Australia at a cost of \$500. Only one pair of Bourkes, Australian grass parakeets, are in America.

Governor To Carry Legion Post Report On "Sign-Up" Drive

Governor Rolph, himself, will assist in carrying reports to state department headquarters at the close of a "Membership Roundup" now in progress by Bert S. Crossland Post No. 170 of the American Legion, according to Commander Lou Deiningner. A quota of 115 members by Armistice Day has been set as the goal of the local post.

The week ending Armistice Day, November 11, has been set aside as National American Legion Week, Deiningner said, during which period all members of the organization are expected to sign up for the ensuing year. At the close of this drive, membership cards will be picked up at various points throughout the state and carried to the headquarters in San Francisco by airplane. Three fast planes are to be used in this work, leaving from three different points in the state simultaneously at 9:30 in the morning and, after stops at the various posts along their respective routes, will arrive at San Francisco at 4:15 in the afternoon.

L. A. COUNTY HAS LOWEST TAX BURDEN

By the United Press

Los Angeles county, with a total property wealth of \$2,913,778,468, ranked 58th among the counties of California this year, with its tax rate of \$1.334 per \$100 on property inside of incorporated cities and \$1.484 outside. State Controller Ray L. Riley announced these figures in his annual report on the value of property in the counties of California.

Los Angeles county, the largest county in the state, both in point of population and total property value, held the record for the lowest county tax rate, the report said. This was \$1.334 for property inside of cities, and \$1.484 for property outside. The next lowest county was Kern, which on account of its rich oil fields, has long held the record for low tax rates. This year Kern showed a rate of \$1.15 inside of cities and \$1.60 outside.
